ABOUT COMPANY

HOP Industries Inc., Started in the year 2014 located in South Florida.

HOP Industries is a diversified manufacture & distributor for the infrastructure market.

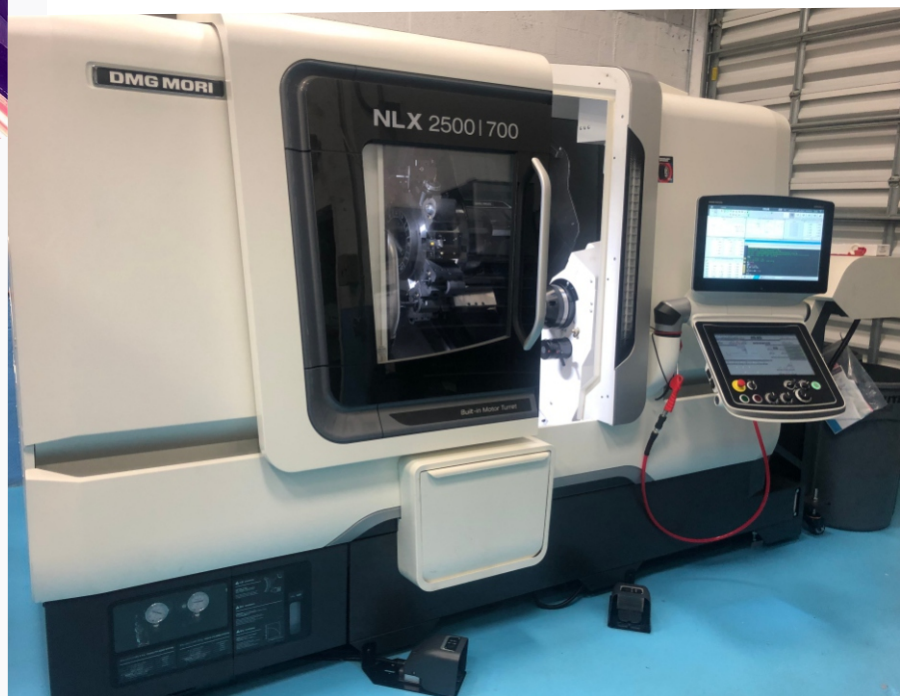

Here at HOP, we operate and engineer support structures, wireless communication structures and components, steel structures for construction of buildings, and heavy-industry equipment.

PROVIDING INTEGRITY

At HOP, we establish a culture of work focused on satisfying our clients. We constantly innovate to offer you the best options in products, brands, and services at fair prices and the highest quality. We are always looking to surpass our clients' expectations and deliver excellence.

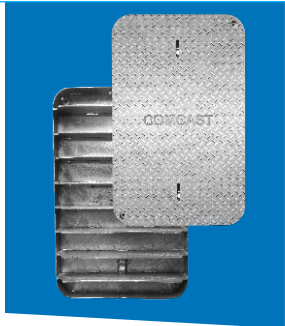

Satisfying our customers is our top priority. We treat you as part of the family and provide you with nothing less than the absolute best.

SERVICES

We offer various services, such as plasma cutting, bending and milling with certified welders on staff. We can provide assistance with design suggestions that can potentially reduce costs and provide a product that optimally meets your needs. Our goal is to give you a hassle-free process, we want more than just a satisfied customer. We also want to be viewed as a trusted advisor, giving a timely response with the right information followed by a quality product at a competitive price.

Galvanized Lids:

High Weather Durability

Facilitating the safe, efficient flow of traffic and pedestrians.

Sign Structures:

Building sturdy sign structures to provide clear directions.

Highway Safety Systems:

Improving roadway safety with essential barrier systems.

Listed below are just some of the items we can offer.

- FDOT Riveted Grates Loading H20/Pedestrian in Painted/Galvanized.
- FDOT Welded Grates & amp; Frames H20/Pedestrian in Painted/Galvanized
- FDOT Curb Inlet Top Type Frames 5 & amp; 6 Index 211 Painted/Galvanized
- FDOT Ditch Bottom Inlet Type K Grating Index 235 Galvanized
- FDOT Skimmer for Outlet Control Structure Index 240 Galvanized
- FDOT U-Type Concrete End-wall Grating Index 260 Galvanized
- FDOT U-Type Concrete End-wall Grating Index 261 Galvanized
- FDOT Miscellaneous Drainage Detail (Manatee) Index 280 Galvanized

Galvanized Lids:

MATERIAL

Steel a36 hot dip galvanized after fabrication.

LOADING

Designed for off street locations witch may occasionally receive h-20 wheel loads.

Tier Load Test

APPLICATION

Tier 22 drive way, parking lot, and off- road way application subject non-deliberate heavy vehicular traffic.

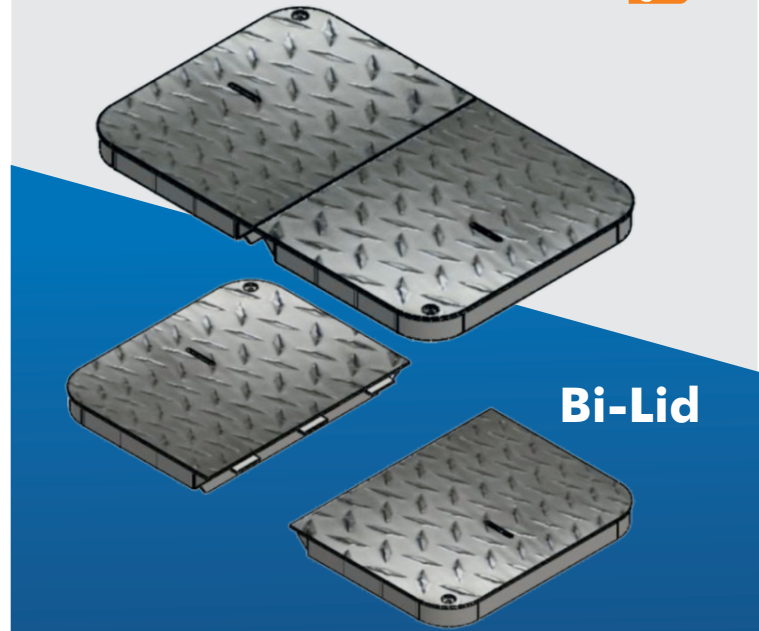

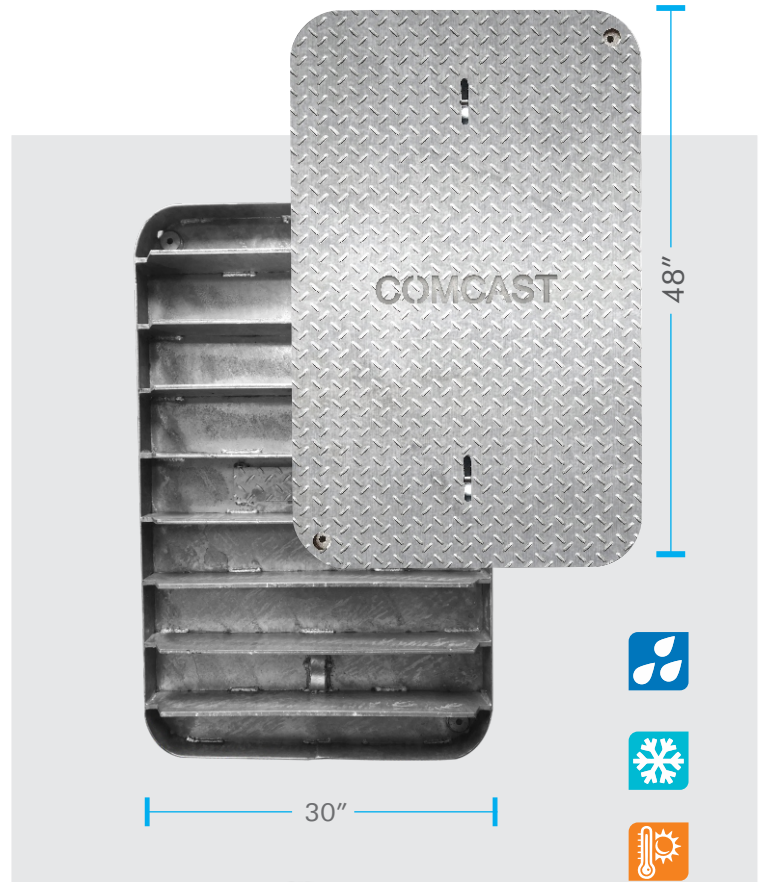

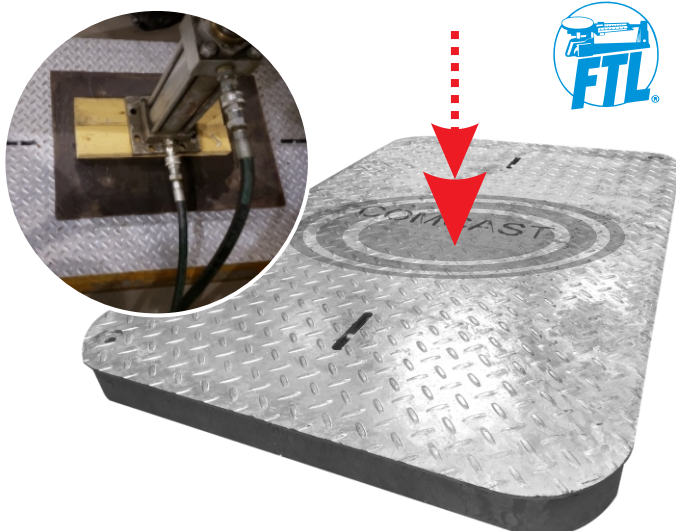

LOADING REQUIREMENTS

Vertical	Design Load	100.1 kn	22500 pounds
	Test Load	150.1 kn	33750 pounds

OFFICIAL TEST REPORT

Test Phase	Deflection at center of sample	Test Results
1	0.156"	Passed ✓

FENESTRATION TESTING LABORATORY INC.

High Weather Durability

All our products are developed with the highest possible quality and tested to ensure their strength and durability over time.

Our goal is to provide you our fully comprehensive services, so you never have to go anywhere else. From the planning and construction phases, through the design, and to the final elements of adding the latest technological touches.
