Address: 10840 NW 138th St Suite. 1  
Hialeah Gardens, FL 33018

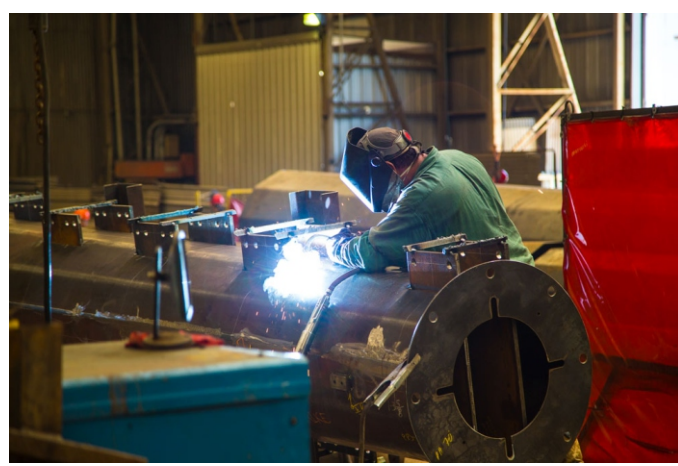

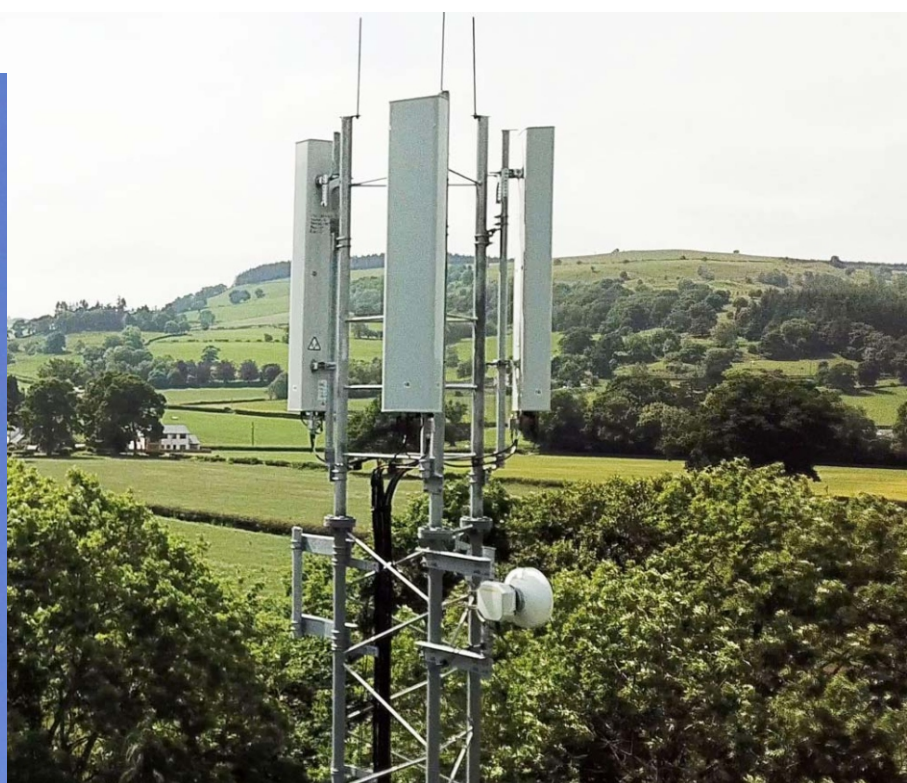

Office Hour: Mon- Sun : 24/7

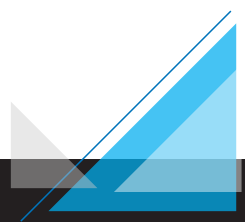

We are one of the leaders in manufacturing the highest quality SMART Small Cell Poles. The latest innovation of this technology allows our customers to rely on dependable and convenient function, comparable to traditional wireless towers. Our customers will be ready for the cities of tomorrow with these trusted adaptable designs.

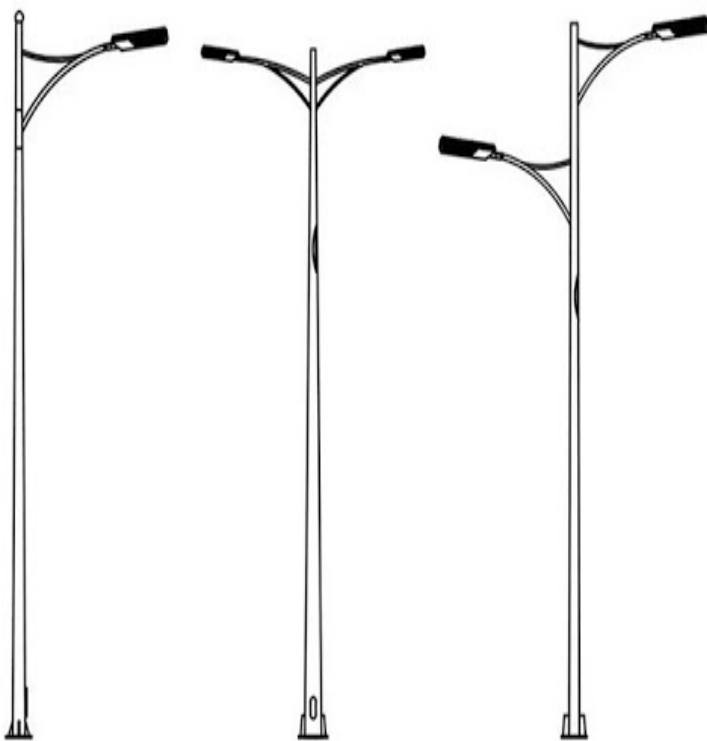

# MONOPOLES

The modern characteristics of our monopole make it the ideal choice for our customers and the needs of the future city. With a contemporary design, energy efficiency, and simple construction, they are a leading choice in the industry in wireless communication.

Whether aluminum or steel, we create reliable custom lighting solutions designed for our customers' diverse needs. Whatever the purpose, whether lighting for large outdoor areas, streets and roadways, or utility, our light poles are made of the highest quality, durable materials and with modern design features..

# DECORATIVE POLES

Decorative lighting poles embrace and recognize the idea that aesthetic is no less fundamental than function. In today's society, city planners and architects are concerned with the question of design just as much as they are with the structural features of lighting poles. We can create appealing, memorable, graceful custom designs for any urban landscape, from historic, to traditional and modern.

# HOP

INDUSTRIES INC.

We look forward to the opportunity to meet with you and discuss how HOP Industries Inc. can begin to build a long-term relationship that is beneficial to both our companies.
